SUMMARY

Web Designer and Developer with comprehensive experience in UI/UX design, front-end development, and digital solution delivery. Expert in transforming design concepts into pixel-perfect, responsive websites using Figma, WordPress, Laravel, and Tailwind CSS. Adept at managing client relationships, implementing data-driven components with Drawflow.js, and developing custom e-commerce platforms with secure payment integrations that drive user engagement and business growth.

EXPERIENCE

Web Designer | Oct 2025 - June 2026

Sabrecraftmarine Sdn Bhd

Designed and developed responsive websites with a focus on user experience and cross-platform functionality. Utilized Figma for prototyping and design, and implemented front-end development using WordPress, Elementor, Oxygen Builder, Laravel and Tailwind CSS

Projects include:

- Stalwart marine website: Developed using Elementor and WordPress
- H2O correctional services: Developed using Laravel and Tailwind Css
- Australian Maritime Industries: Developed using WordPress and Oxygen Builder, designed using Figma

Freelance Web Developer (Front-end Focus) | Oct 2025 - Present

Midnite Pearl

- Developed a full-stack e-commerce jewelry website with custom user and admin interfaces using Laravel Breeze, Livewire, and Tailwind CSS
- Integrated Stripe payment gateway to enable secure online transactions and order processing
- Designed responsive UI/UX in Figma and implemented pixel-perfect front-end interfaces optimized for mobile and desktop

Web Developer Intern | Mar 2025 - June 2025

Daythree Business Services

- Developed front-end and back-end features using PHP, Laravel Breeze, Tailwind CSS, MySQL, and Figma
- Built data-driven components by integrating Drawflow.js for analytics and visual data display
- Collaborated on requirements gathering and implementation of UI and application logic

Front-end Developer Intern | Sept 2022 - Mar 2023

Laman7, B2B Marketing Agency

- Designed and built responsive front-end interfaces using Figma, WordPress, Oxygen Builder, and Bootstrap
- Translated design mockups into functional web pages while meeting tight project timelines
- Supported UI improvements and layout consistency across client websites

PROJECTS

SAIGE | Laravel Breeze, MySQL, Tailwind.css, DaisyUI, Figma, Drawflow.js

- Fullstack on the development of SAIGE
- Developed a data analytics dashboard by integrating drawflow.Js to display real-time data from the server
- Developed a user-friendly interface for an engaging user experience and enables the clients to assess their business performance based on the on-going key performance measures

Final Year Project (FYP) - BookingHive | Laravel Breeze, MySQL, Tailwind.css, Bootstrap, Figma

- Designed a user-friendly interface for an engaging user experience and easy navigation
- Developed a personalised hotel booking system that implements an individualized recommendation systems
- Implemented a collaborative-filtering (**CF**) algorithm that assess user preferences, behaviour, and previous reservations to make personalized recommendations for accommodations, and destinations

SKILLS
